Research Interests

Behavioral Economics, Experimental Economics, Self and Social Image Effects, Information, Intrinsic and Extrinsic Incentives

Employment

01/2021- present   Research Scientics(Telenor ASA) - Research and Innovation

I am in the Advanced Analytics and AI team and my main tasks are contributing Telenor ASA with behavioral research and advanced data analytics.I work with internal and external data sources both for data collection and analysis. I contribute on designing experiments and surveys and using advanced methods for the analysis of the results. In scope of Telenor ASA actions, I contribute all business units including Nordics and Asia. Taking part in external collaborations with academic institutions, research entities and professionals is part of my duties as well.I am also an affiliated researcher at Norwegian School of Economics, FAIR Research Centre.

08/2016- 12/2020   PhD Research Scholar at Norwegian School of Economics(NHH) - Department of Economics

10/2014-08/2016   Research Assistant at Istanbul University- Faculty of Economics, Department of Public Finance
